

MANOJ KUMAR

Data Analyst | MIS Executive | Reporting Analyst

Hyderabad, India • +91-9676125895 • patelmanoj40612@gmail.com • github.com/manojpatel001

PROFESSIONAL SUMMARY

Results-oriented B.Tech graduate with a 9.09 CGPA and hands-on expertise in Excel, SQL, Power BI, and Python. Demonstrated ability to transform raw data into actionable business intelligence through interactive dashboards, MIS reports, and in-depth data analysis. Proven track record of delivering data-driven insights that improve operational efficiency, reduce reporting time, and support strategic decision-making. Seeking a Data Analyst or MIS Executive role to contribute analytical and visualization capabilities to growth-focused organizations.

TECHNICAL SKILLS

Data Analysis & Visualization: Microsoft Excel (Advanced), Power BI, Tableau, Google Sheets

Database & Query Languages: SQL (Joins, Subqueries, Aggregations, Window Functions), MySQL

Programming & Libraries: Python, Pandas, NumPy, Matplotlib, Seaborn

Excel Expertise: Pivot Tables, VLOOKUP/XLOOKUP, Power Query, Conditional Formatting, Macros

Reporting & MIS: Dashboard Development, KPI Tracking, Automated Reporting, Data Validation

Soft Skills: Analytical Thinking, Attention to Detail, Problem Solving, Communication, Teamwork

PROJECTS

Sales Analytics Dashboard | Excel • SQL • Power BI • KPI Reporting

- Designed and deployed an end-to-end interactive Power BI dashboard analyzing 5,000+ monthly sales records across 4 regional segments, enabling real-time revenue and profitability tracking.
- Engineered 15+ SQL queries to extract, transform, and load sales data from a relational database, reducing data preparation time by 40% and eliminating manual consolidation errors.
- Identified the top 3 revenue-generating regions contributing 62% of total sales, enabling targeted resource allocation decisions for the sales leadership team.
- Automated recurring weekly reports using Excel Pivot Tables and Power Query, cutting manual reporting effort by 5 hours/week and improving dashboard refresh accuracy.

HR Analytics Dashboard | Power BI • Excel • SQL • Attrition Analysis

- Built a comprehensive HR analytics dashboard tracking attrition rates, employee performance scores, and department-wise headcount across 500+ employee records.
- Identified a 23% higher attrition risk in the Sales department by analyzing tenure, performance, and engagement data, providing HR leadership with targeted retention recommendations.
- Developed interactive slicers and drill-through reports in Power BI, reducing the time to generate monthly HR reports from 3 hours to under 20 minutes.
- Implemented data validation rules in the underlying Excel model, reducing data entry errors by 30% and ensuring consistent reporting integrity.

E-Commerce Customer & Sales Analysis | Python • Pandas • NumPy • Matplotlib • SQL

- Performed end-to-end exploratory data analysis (EDA) on an e-commerce dataset of 50,000+ transactions to uncover customer purchasing patterns and product performance trends.
- Cleaned and preprocessed raw data using Pandas — handling missing values, duplicate records, and outliers — improving dataset quality by 95% prior to analysis.
- Segmented customers using RFM (Recency, Frequency, Monetary) analysis, identifying the top 20% of customers responsible for 68% of total revenue to support targeted marketing.
- Created 10+ visualizations using Matplotlib and Seaborn illustrating sales seasonality, category-wise revenue distribution, and return rate trends for product strategy decisions.

Insurance Enrollment MIS Reporting System | Advanced Excel • Pivot Tables • VLOOKUP • Power Query

- Designed and maintained a monthly MIS reporting framework for tracking insurance enrollment metrics, policy renewals, and claims data across 3,000+ records.
- Automated daily and monthly report generation using Excel Macros and Power Query, reducing report creation time from 4 hours to 45 minutes per cycle.

- Implemented VLOOKUP-based cross-referencing and data validation rules, achieving 99.2% data accuracy and reducing reporting errors by 35%.
- Delivered 12+ monthly performance dashboards highlighting enrollment trends, regional penetration rates, and policy lapse patterns used by management for strategic reviews.

EDUCATION

Bachelor of Technology – Internet of Things (IoT)	2022 – 2026
Malla Reddy University, Hyderabad	CGPA: 9.09 / 10.0
Intermediate (MPC)	2020 – 2022
Narayana Junior College, Hyderabad	98.2%

CERTIFICATIONS

- Google Data Analytics Professional Certificate – Google / Coursera
- Power BI for Data Visualization & Dashboard Development – Microsoft / Udemy
- Advanced Microsoft Excel for Data Analysis – Microsoft / Coursera
- SQL for Data Analysis – Mode Analytics / Udemy
- Data Analysis with Python (NumPy & Pandas) – freeCodeCamp

ACHIEVEMENTS & STRENGTHS

- Academic Excellence: Maintained a 9.09 CGPA throughout B.Tech — consistently in the top 5% of the department.
- Intermediate Top Scorer: Achieved 98.2% in Intermediate (MPC), demonstrating strong analytical and quantitative foundation.
- Quick Learner: Self-taught Python data stack (Pandas, NumPy, Matplotlib) within 3 months alongside coursework.
- Trilingual Communicator: Fluent in English, Telugu, and Hindi — effective across diverse stakeholder environments.
- Deadline-Driven: Consistently delivered all academic and project deliverables on time with high accuracy and attention to detail.
